

May 2020

To My Friends & Clients,

This was given to me by “The Council Of Light”. Beings who help to guide us on our Earth journeys as we incarnate each lifetime. This is the message.....

During this pandemic we are all being offered the opportunity to release old unneeded patterns within our egos. Please do not fight it or you will feel more confined than ever. We have been going back and forth between dimensions rapidly since December 2012. The time is now to step completely into 4<sup>th</sup> level consciousness and then strive for 5<sup>th</sup> -which is unconditional Love. In 4<sup>th</sup> we accept being one with Divine Spirit. Then giving up our resistance to life as it is stepping between 3<sup>rd</sup> & 4<sup>th</sup> dimensions has been difficult enough, but now we are being asked to “remember who we are as Spiritual Beings” and still be anchored in the world physically. As we raise our consciousness above fear and worry to faith and trust in the Divine Plan life will become easier.

By December 2020's Winter Solstice and through the years 2021-2022 – there will be a shift happening to bring us an opportunity to experience “Oneness” in a more pronounced way. It will be very personal for all who believe in goodness. Those who doubt or misuse power will be given opportunities to change their ego perceptions from “separation” to “oneness” to bring in more reasons for their lives, for giving of themselves with honor.

The Steps of Ascension will amplify as we truly move into the Age of Aquarius as of Winter Solstice 2020 and beyond. Please be patient. We will see many humanitarians come forward to heal Mother Earth. Of the babies being born in the future, many of them will know they have a strong connection to the Stars and other Galaxies, where their souls have lived many times, prior to this incarnation.

Mother Earth will welcome all beings who honor her, who realize every part of nature (every tree, plant, stone, & animal) has a spirit connected to the Creator. She is birthing us into a New Age. Let us treat her and each other well. Our hearts are opening – and so it is.
